Professional Summary

I am a self-starting and motivated graphic designer and web developer with over seven years of freelance/professional experience and a BS in Graphic Design from Arizona State University (2025). I specialize in multimedia design, front-end development, digital illustration, and brand identity. I bring passion and commitment to every project, combining technical skill and strong communication to maximize client satisfaction.

Project Experience

Fairchild Website

2026 – 2026

Website redesign, using the WordPress platform, for The Fairchild Company of Tempe, AZ. Reviewed project brief/timeline & brand guidelines. Used Figma to create an initial wireframe and establish typography and color. Ensured consistency of responsive web functionality. Provided a strong client interface for feedback. Managed project timelines effectively and met project deadlines with 100% success rate, while managing digital assets securely & efficiently.

Tim Scott Logo Design

2025 – 2025

Logo creation for Tim Scott Theatrical, an individual client based in New York City, NY. Used Adobe Photoshop to create digital sketches. With client feedback, established a distinctive brand identity. Used Adobe Illustrator to create final designs and export into print & web formats.

Alesco Logo Design

2024 – 2024

Logo redesign for Alesco Design Solutions of Phoenix, AZ, created using Adobe Illustrator. Presented pencil sketches. Gathered research on potential visual symbols and design styles. Worked alongside client to establish colors and fonts. Using Adobe InDesign, developed a sticker sheet including the final logo(s).

Commission Work

2018 – 2026

Accepting commission work on an ongoing basis. Completed digital illustration work, primarily using Clip Studio Paint, for thirty individual clients to date. Presented initial sketched thumbnails. Incorporated client feedback, and met established deadlines.
